2013 / RETAIL PRODUCT LINE

This year, we're doing things a little differently. We still strive to bring consumers the most advanced designs and highest quality of cordless phones today, but now we're taking it a step further with video and home safety features.

Our new home monitoring (IS7121) and CareLine™ (SN6197) series give consumers an extra sense of security by combining features like video, one-button calling and mobility with high-tech phone systems. And we've built on the success of our traditional cordless phones, as well. We've made enhancements to popular Connect to Cell™ models so consumers can keep connected—to all their calls—at home.

For your convenience, this catalog is divided into four product categories: residential phones, home monitoring, CareLine and Safe&Sound® baby monitors. Each section showcases a blend of stylish design, cutting-edge technology and high-quality products to offer your customers a wide range of options.

As always, our goal is to create products that enhance the lives of each and every consumer. These systems are built to do just that.

RESIDENTIAL / PHONE SYSTEMS

- Our residential phone systems offer something for everyone thanks to their wide range of value, lifestyle and high-tech models. With more functionality available at every price point, these series provide exceptional access to features like cell phone integration, hands-free mobility and innovative design throughout our entire product line.

CS6114

Cordless Phone

with Caller ID / Call Waiting*

Key Features

Caller ID / Call Waiting

Know who's calling with Caller ID / Call Waiting. Handset displays the name, number, time and date of incoming calls.

Backlit Keypad and Display

The entire keypad and LCD screen illuminate for easier viewing in dim light.

DECT 6.0 Digital Technology

Utilizing the latest-available frequency band, this interference-free technology provides superior voice and sound quality and higher protection against eavesdropping than 2.4GHz and 5.8GHz phone systems.

ADDITIONAL FEATURES

- 30 name and number phonebook directory
- Voicemail waiting indicator**
- Last 5 number redial
- Mute
- Any key answer
- Volume control
- Trilingual prompts—choose between English, Spanish or French
- Easy-to-use standard wall-mount capability

CS6124

LS6405

Accessory Handset

with Caller ID / Call Waiting*

Key Features

Voice Announce® Caller ID

Audibly announces the name of the caller on all handsets and the base unit. No need to find the handset to see who's calling—making screening calls that much easier.

Push-to-Talk

No more shouting through the house—this system doubles as a multiple-handset walkie-talkie to instantly communicate with any or all of the units in your home.

HD Audio

Calls have never sounded so rich and life-like. An extended frequency band and fine-tuned signal deliver a fuller, clearer sound. The built-in equalizer provides four different profiles to best match your needs.

ADDITIONAL FEATURES

- Accessory handset only—requires an LS6425 or LS6475 series phone to operate
- Caller ID / Call Waiting—stores 50 calls
- Handset speakerphone
- Backlit keypad and display

HOME MONITORING /

→ The first of its kind, this two-in-one cordless answering system and video monitor combines a versatile phone with a digital camera doorbell. Customers get high-tech features, a visual connection to their front door and a flexible home phone system—all in one product.

IS7121-2

Cordless Answering System

with Audio / Video Doorbell

Key Features

Audio / Video Doorbell Answering System

The first of its kind, this two-in-one cordless answering system and audio / video doorbell combines a versatile phone system with a digital camera, for convenience and security at home.

Front Door Screening

Like Caller ID for your front porch, the video doorbell allows you to screen visitors before answering the door, without the worry of being seen.

Camera on Doorbell

The system automatically snaps a photo and sends it to the handsets when visitors ring the doorbell. You can then stream video, audio or both with just two buttons.

ADDITIONAL FEATURES

- Space savings
- 1.8-inch color display on handsets
- Voice Announce® Caller ID
- Push-to-Talk
- HD Audio
- Digital answering system
- Caller ID / Call Waiting*—stores 50 calls
- Handset speakerphone
- ECO Mode power-conserving technology
- Quiet Mode
- Backlit keypad and display
- Expandable up to 10 handsets and 2 cameras (uses IS7101 handset and IS741 camera)
- DECT 6.0 digital technology
- Up to 14 minutes of recording time***
- Call screening
- Call intercept
- Remote access
- Message retrieval from handset
- Message time and date stamp
- 50 name and number phonebook directory
- Intercom between handsets
- Conference between an outside line and up to 2 cordless handsets
- Voicemail waiting indicator**
- Last 10 number redial
- Mute
- Any key answer
- Volume control
- Trilingual prompts—choose between English, Spanish or French

IS741

Accessory Doorbell

with Audio / Video Camera

Key Features

Take a snapshot, or stream video

The IS741 automatically snaps a photo and sends it to the handsets when visitors ring the doorbell. You can then stream video, audio or both with just two buttons.

Front Door Screening

Like Caller ID for your front porch, this video doorbell allows you to screen visitors before answering the door, without the worry of being seen.

Night Vision

See guests even after dark with automatic night vision.

ADDITIONAL FEATURES

- Accessory camera only—requires an IS7121 series phone to operate
- Video camera on doorbell
- Adjustable camera angle
- 1 year battery life
- Weatherproof
- Battery and AC power modes
- Intercom to the cordless handset
- DECT 6.0 digital technology

IS7101

Accessory Handset

with Color Display

Key Features

Front Door Screening

Like Caller ID for your front porch, the video doorbell allows you to screen visitors before answering the door, without the worry of being seen.

Audio / Video Camera on Doorbell

The system automatically snaps a photo and sends it to the handsets when visitors ring the doorbell. You can then stream video, audio or both with just two buttons.

Color LCD Display

Stream live video or review the photo log on an easy-to-see 1.8-inch color LCD screen.

ADDITIONAL FEATURES

- Accessory handset only—requires an IS7121 series phone to operate
- Voice Announce® Caller ID
- Push-to-Talk
- HD Audio
- Caller ID / Call Waiting*—stores 50 calls
- Handset speakerphone
- ECO Mode power-conserving technology
- Quiet Mode
- Backlit keypad and display
- DECT 6.0 digital technology
- Message retrieval from handset
- 50 name and number phonebook directory
- Intercom between handsets
- Conference between an outside line and up to 2 cordless handsets
- Voicemail waiting indicator**
- Last 10 number redial
- Mute
- Any key answer
- Volume control
- Trilingual prompts—choose between English, Spanish or French

SAFE&SOUND® / BABY MONITORS

- Using the same high standards for sound and technology as our cordless phones, we recently introduced a line of flexible audio and video baby monitors. Customers can choose between traditional audio monitor systems or an enhanced audio / video version featuring a color LCD screen to always stay connected with their little one at home.

DM221

Safe&Sound® Digital Audio Monitor

Key Features

Extended Range

Be connected to your baby from another room or even outside with up to 1,000 feet of range.

Talk-Back Intercom System

Sometimes all your baby needs is to hear the sound of your voice. Comfort your little one from another room with the built-in intercom.

Rechargeable Batteries

Up to 18 hours of monitoring time on a single charge means you have the freedom to carry the parent unit everywhere you go without the hassle of a power cord.

ADDITIONAL FEATURES

- DECT 6.0 digital technology
- Secure, digitized transmission eliminates background noise and interference so you can rest assured the only sounds you—and only you—will hear are your baby's.
- 5-level sound indicator
- For use as a night-light, the loop on the baby unit illuminates
- Belt clip
- Vibrating sound alert
- Backlit display on parent unit

VM321

Safe&Sound® Full-Color Video and Audio Monitor

Key Features

Split-Screen Viewing

The system supports up to four cameras that can be viewed from one parent unit. Viewing modes include single-view and quad-view split screen to view any or all rooms at once.

Infrared LED

Check on your little one anytime, day or night, with automatic night vision.

Talk-Back Intercom System

Sometimes all your baby needs is to hear the sound of your voice. Comfort your little one from another room with the built-in intercom.

ADDITIONAL FEATURES

- Up to 1,000 feet of range
- High-resolution, 2.8-inch color LCD
- Full-motion video with up to 22 frames per second
- Expandable system supports up to 4 baby units (uses VM301 camera)
- Digital transmission—2.4GHz frequency digitally transmits both audio and video signals
- Adjustable camera angle
- Wall-mountable baby unit with built-in cord storage compartment
- Soothing lullabies—play 5 different melodies from the camera
- Temperature sensor
- Rechargeable battery with low-battery alert on parent unit
- Zoom the camera from the parent unit
- 6-level sound indicator
- Vibration sound alert on parent unit

VM301

Safe&Sound® Video Camera

Key Features

Full-Motion Video

With up to 22 frames per second, you can see your child's every move on clear, dynamic video.

Talk-Back Intercom System

Sometimes all your baby needs is to hear the sound of your voice. Comfort your little one from another room with the built-in intercom.

Wall-Mount Bracket

Easy wall mounting means you can quickly change the position of the camera so your baby is always in full view.

ADDITIONAL FEATURES

- Requires VM321 video monitor to operate
- Up to 1,000 feet of range
- Digital transmission—2.4GHz frequency digitally transmits both audio and video signals
- Adjustable camera angle
- Wall-mountable baby unit with built-in cord storage compartment
- Soothing lullabies—play 5 different melodies from the camera
- Temperature sensor

vtech®

Designed to fit your home. And your life.®

* **Caller ID / Call Waiting** displays a caller's name, number, time and date, even while on another call. This feature requires the user to subscribe to Caller ID with Call Waiting, a combined service, available through your telephone service provider. Subscribers receiving Caller ID and Call Waiting as separate services must subscribe to Caller ID with Call Waiting as a single, combined service. Such services may not be available in all areas, may be called different names by different local telephone companies, and a fee may be associated with these services. To ensure optimal utilization of this feature, both the user's telephone and the telephone of the calling party must be in areas where Caller ID with Call Waiting services are available, and the local telephone company must be using compatible equipment as well.

** **Voicemail** feature requires a subscription from your telephone service provider.

*** **Recording time** depends on individual message characteristics.
