# The VTech 2010 Product Line

## **Welcome to VTech's 2010 lineup.**

This year's product line is the result of our continuing effort to bring consumers the most advanced designs in telephony products while delivering excellent quality and performance. We have divided our products into four categories: Value, Lifestyle, Tech, and Innovation. Each of these product lines are a blend of stylish design, exceptional feature sets and competitively priced to offer your customers a wide range of options.

Key models to point out this year are the CS6200 series, the LS6325 and the DS6321 expandable BLUETOOTH® system. We are also pleased to

announce the inclusion of Push-to-Talk communication in the LS6325 series. VTech continues our commitment to making a difference in the livability of our planet by producing sustainable and environmentally friendly products.

We are ENERGY STAR® certified and RoHS compliant. In fact, even this catalog is printed using Forest Stewardship Council (FSC) certified paper stock with a soy ink process by an FSC certified printer. For an electronic copy of this catalog, please contact your sales representative or visit [www.vtechreps.com](http://www.vtechreps.com)

## CS SERIES

**VTech's Value Series** offers something for every budget-conscious consumer. The series continues to include an affordable 5.8GHz analog option and a full DECT 6.0 offering. The CS5111 and CS5121 will continue the 5.8GHz dominance that VTech has experienced for years. The CS6219 and CS6229 offer a smart design, a full range of features, expandability and are available in a variety of bundles. Special attention was given to the design of this series to bring more focus to the useful speakerphone feature. The handset speakerphone key is the largest key and centered nicely for easy one touch access. The VTech Value Series provides all the standard features in quality products for a great value.

CS SERIES

# CS5111

## LS SERIES

**VTech's 2010 Lifestyle Series** stays true to its focus on delivering contemporary, stylistic products that feature the latest technology innovations. The LS6325 series incorporates a sleek design with a low-profile handset keypad and metallic silver finishing with high gloss black detailing. The thin, curved handsets include speakerphones and backlit LCDs and keypads for easy viewing. New to the Lifestyle Series is Push-to-Talk (PTT) functionality, which is ideal for larger households and small office users. A feature previously offered on walkie-talkies and mobile phones, Push-to-Talk enables instant voice delivery through the handset speakerphone, eliminating disruptive shouting through the home and speedier communication.

LS SERIES

# LS6325-3

**Expandable Cordless Phone System**

- Message retrieval from the handset
- Voicemail waiting indicator

## DS SERIES

**VTech's Tech Series** delivers the best in home communications with advanced BLUETOOTH® and DECT 6.0 technologies to enable landline and cellular calls on one home phone system. The sleek expandable system makes it easy to answer cellular or landline calls from any room. As long as the cell phone is left within BLUETOOTH range (typically 30 feet) of the base station, users can enjoy clear, comfortable cell phone or landline calls using the cordless handset up to 1,500 feet away from the base. The DS6321 series is also the first cordless phone system capable of downloading cellular phonebook directory entries (up to 6,000) so users can easily access all of their contacts in one location. By converging cellular and landline technology, VTech's Tech series helps avoid typical cellular problems such as battery life issues, poor audio quality or dropped calls.

DS SERIES

# DS6321-3

## Expandable Cordless Phone System with Cellular Connection through BLUETOOTH® Technology

### Key Features

**Makes and receives landline and cellular calls**  
Connects to BLUETOOTH enabled cellular phones to make and receive cellular calls with the ease and comfort of a home phone system and avoids the mad dash to catch a cell call before it goes to voicemail. Two cell phones can be actively connected to the base. Cellular calls can be made or received from either of these two active cell phones. Pair four different cell phones to the base unit.

**Access your cellular phonebook directory**  
Download your cellular phonebook directory to this cordless phone system and easily dial a landline or cellular call from the directory. Stores over 6000 directories from up to four different cell phones—no need to input names and numbers into your cordless phone.

**Digital answering system**  
With 14 minutes of recording time, the digital answering system answers the call when you can't. No tapes or moving parts.

### ADDITIONAL FEATURES

- DECT 6.0 Digital technology provides the best sound quality, security and range in cordless phones
- Interference free for crystal clear conversations—won't interfere with wireless networks and other electronic devices
- Protect yourself from identity theft with digital security—your call is digitized and encrypted, making it nearly impossible for someone to eavesdrop
- Three handset system—includes 3 handsets and requires only one phone jack
- Expandable up to 12 handsets using only one phone jack—uses DS6301 accessory handset
- Landline service not required—works great for cellular only households
- Caller ID/call waiting—stores 50 calls
- Handset speakerphone
- Intercom between handsets
- Transfer calls between handsets
- Conference an outside call between handsets
- 50 name and number phonebook directory
- Backlit message counter
- Blue backlit keypad and display
- Wall mount bracket included

DS SERIES

# DS6301

- Battery-operated option allows you to take the device outside the home or office.
- Convenient remote—browse, select and control your music from across the room using the remote control
- Access local weather and 5-day forecast
- Full color display

# DECT 6.0

**Quality** — VTech's DECT 6.0 cordless phone platform provides interference free transmissions for crystal clear conversations. This DECT 6.0 platform is designed only for cordless phone communication. No other electronic devices can transmit on this frequency so your VTech DECT 6.0 cordless phone doesn't have to compete with other devices. No competition means you get the best cordless phone sound quality and range.

**Security** — VTech's DECT 6.0 cordless phone platform digitizes and encrypts the phone signal making it impossible for someone to eavesdrop. This protects you from identity theft and other devious acts. Be secure with all of your conversations when using any of the VTech DECT 6.0 cordless phones.

**Range** — VTech's DECT 6.0 cordless phone platform provides better range than all other phone platforms (i.e. 900 MHz, 2.4 GHz, 5.8 GHz). This DECT 6.0 platform is designed only for cordless phone communication. No other electronic devices can transmit on this frequency so your VTech DECT 6.0 cordless phone doesn't have to compete with other devices. No competition means you get the best cordless phone sound quality and range.

**Caller ID with Call Waiting** displays a caller's name, number, time and date, even while on another call. This feature requires the user to subscribe to Caller ID with Call Waiting, a combined service, available through the local telephone company. Subscribers receiving Caller ID and Call Waiting as separate services must subscribe to Caller ID with Call Waiting as a single, combined service. Such services may not be available in all areas, may be called different names by different local telephone companies, and a fee may be associated with these services. To ensure optimal utilization of this feature, both the user's telephone and the telephone of the calling party must be in areas where Caller ID with Call Waiting services are available, and the local telephone company must be using compatible equipment as well.

**VoiceMail** feature requires a subscription from your local telephone company.
