

vtech[®] 2011 Full Product Line Catalog

The VTech 2011 full product line

Welcome to VTech's 2011 lineup.

This year's product line is the result of our continuing effort to bring consumers the most advanced designs in telephony products while delivering excellent quality and performance. We have divided our products into four categories: CS Series, LS Series, DS Series and CD Series.

Each of these product lines are a blend of stylish design, exceptional feature sets and competitively priced to offer your customers a wide range of options.

We are also pleased to announce the inclusion of HD Audio and Voice Announce® Caller ID into our new LS and DS Series. The LS Series also includes a DECT 6.0 Cordless Headset. As you know, VTech is committed to making a difference in improving the livability of our planet and producing sustainable and environmentally friendly products. Our products have earned the ENERGY STAR®, are RoHS and TIA-1083 compliant, and we continue to reduce the amount of materials used in our packaging. Additionally, we have decided to provide an environmentally friendly, electronic catalog. However, it is formatted for easy printing if you desire a physical copy.

CS Series pgs 4-9

LS Series pgs 10-14

DS Series pgs 15-19

CD Series pgs 20-22

CS series

VTech's CS Series offers something for every budget-conscious consumer. These models offer a smart design, a full range of features and are available in a variety of bundles.

CS6114

LS series

VTech's Lifestyle Series stays true to its focus on delivering contemporary, stylistic products that feature the latest technology innovations.

LS6425

Cordless Answering System | with Caller ID

Key Features

Voice Announce Caller ID

Audibly announces the name and number of the caller on all of the handsets and base unit. No need to find the handset to see who is calling. Makes screening calls that much easier.

Push-to-Talk Intercom

Use as a multiple handset walkie talkie system to instantly communicate with any or all of the handsets within the system. No need to shout throughout the house anymore.

HD Audio

The frequency band has been extended, allowing for the signal to be reproduced and tuned for a fuller and clearer sound.

Additional Features

- DECT 6.0 Digital technology provides the best sound quality, security and range in cordless phones
- Interference free for crystal clear conversations—won't interfere with wireless networks and other electronic devices
- Protect yourself from identity theft with digital security—your call is digitized and encrypted, making it nearly impossible for someone to eavesdrop
- Expand this system to a total of 12 cordless handsets and 2 cordless headsets (uses LS6405 accessory handset and IS6100 headset)
- Digital answering system
- Caller ID/call waiting—stores 50 calls
- Handset speakerphone
- 50 name and number phonebook directory
- 14 minutes of recording time
- Message retrieval from the handset
- Blue backlit keypad and display
- Trilingual prompts—choose between English, Spanish or French
- Wall mount bracket included

LS6475

Cordless Answering System | with Cordless Headset

Key Features

Includes a DECT 6.0 Cordless Headset

Enjoy the freedom to have a private cordless hands-free conversation anywhere in your home or office. This DECT 6.0 cordless headset gives you the same interference free, superior sound, and long range you expect with a traditional DECT 6.0 cordless handset. Have more efficient conversations with this versatile cordless communication system.

LS6475-4

Voice Announce Caller ID

Audibly announces the name and number of the caller on all of the handsets and base unit. No need to find the handset to see who is calling. Makes screening calls that much easier.

LS6475-3

Additional Features

- DECT 6.0 Digital technology provides the best sound quality, security and range in cordless phones
- HD Audio—The frequency band has been extended, allowing for the signal to be reproduced and tuned for a fuller and clearer sound. Choose from 4 different profiles to best match your hearing from the built in equalizer

DECT 6.0

Quality — VTech's DECT 6.0 cordless phone platform provides interference free transmissions for crystal clear conversations. This DECT 6.0 platform is designed only for cordless phone communication. No other electronic devices can transmit on this frequency, so your VTech DECT 6.0 cordless phone doesn't have to compete with other devices. No competition means you get the best cordless phone sound quality and range.

Security — VTech's DECT 6.0 cordless phone platform digitizes and encrypts the phone signal, making it impossible for someone to eavesdrop. This protects you from identity theft and other devious acts. Be secure with all of your conversations when using any of the VTech DECT 6.0 cordless phones.

Range — VTech's DECT 6.0 cordless phone platform provides better range than all other phone platforms (i.e. 900 MHz, 2.4 GHz, 5.8 GHz). This DECT 6.0 platform is designed only for cordless phone communication. No other electronic devices can transmit on this frequency so your VTech DECT 6.0 cordless phone doesn't have to compete with other devices. No competition means you get the best cordless phone sound quality and range.

Caller ID with Call Waiting displays a caller's name, number, time and date, even while on another call. This feature requires the user to subscribe to Caller ID with Call Waiting, a combined service, available through the local telephone company. Subscribers receiving Caller ID and Call Waiting as separate services must subscribe to Caller ID with Call Waiting as a single, combined service. Such services may not be available in all areas, may be called different names by different local telephone companies, and a fee may be associated with these services. To ensure optimal utilization of this feature, both the user's telephone and the telephone of the calling party must be in areas where Caller ID with Call Waiting services are available, and the local telephone company must be using compatible equipment as well.

Voicemail feature requires a subscription from your local telephone company.
