

# Phones that make everyone feel at home

Welcome your guests with an in-room experience that's more like home. One that's completely cordless, allowing them to make and take calls from anywhere in their rooms. And one that has the added benefit of keeping them safe—delivering peace of mind all the time.

Thanks to our award-winning and patented cordless battery backup phones, your guests can keep talking—and even make emergency calls—should the power go out.

With VTech phones, your property will feel like a home away from home.
