About answering system and voicemail

Your telephone has separate indicators for two different types of voice messages: those left on the built-in answering system and those left at your telephone service provider's voicemail. Each alerts you to new messages separately.

- If **XX New messages** and ⟁ display on the handset and the message window on the telephone base flashes, there are messages recorded on the built-in answering system.

  The total recording time is approximately 14 minutes. It can record and store up to 99 messages and the recording time of each message depends on the message length you set.

- If **New Voicemail** and ✉ display on the handset, your telephone service provider is indicating that it has new voicemail for you. Contact your telephone service provider for more information on how to access your voicemail.
